

Installation Specifications

At www.CORONADO.com product specifications can be downloaded in CSI format.

Choices Specific to Appalachian Fieldstone

- Standard Colors:** Bourbon, Carlsbad Blend, Dakota Brown, Grey Quartzite, Madison County, Mountain Sunset or Any Custom Color
- Grout Joint Width:** Standard ½" Average Grout Joint, ¾" Average Grout Joint or 1" Average Grout Joint
- Grouting Options:** Deep Raked, Full Brushed, Full Smooth Tooled or Rough Brushed
- Grout Joint Color:** Natural Grey, Natural Off-White or Complementary Color
- Accessories:** Corners, Complementary Tiles, Wall Caps, Post Caps and more. (See Accessories section of binder)

Special Installation Notes

- Pattern:** Blend the stone on the wall from several different boxes to ensure proper color and size variation.
See catalog photos for recommended installation pattern.
- Grout Joints:** Regardless of running direction, joints should not exceed more than three stones.
- Sealing:** Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.
- Freeze-Thaw:** When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar on the back of each stone, which will prevent water pooling behind the stone after it's been installed.
- Installation Info:** Download Coronado's latest installation instructions at www.coronado.com for information on mortar and installation recommendations.

Profile Properties

- Size:** Average stone sizes range from 7" to 9" (nominal).
- Thickness:** 1½" to 2½"
- Weight:** 7 to 10 lbs. per square foot.
- Packaging:** Available in big boxes (100 sq ft Flats & 100 lft Corners) or Dura-Paks (12.5 sq ft Flats & 12.5 lft Corners).
When purchasing Appalachian Fieldstone, coverage is based on installation with a ½" joint at the back of the stone.

½" Shallow Brushed Grout Joint
